***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the prior art does not teach an insert conductor having a conductor with an outer frame surrounding a wiring section with a plurality of wires and having connections between between the wiring sections and between the wiring sections and the frame, where the upper and lower end surfaces of the conductor are completely covered by a deformation preventer to prevent the ends of the wires from being deformed during insert molding and cutting. The prior art does not teach the insert conductor in a brush holder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
